

## GLOBAL SECURITY PRODUCTS

---

### OVERVIEW

---

Global Security Products (GSP) combines UTC Fire & Security's security products businesses into one organization under the leadership of Mark Barry, President, GSP.

The company offers a full range of customer solutions in the areas of access control, intrusion, video, and key and lock products and solutions.

### STRUCTURE

---

GSP is comprised of five main businesses:

- **EMEA**, which provides a complete range of intrusion, video, access control, fire and fiber products covering the residential, commercial and enterprise market segments through its network of sales and support centers in 33 countries.
- **Enterprise Systems**, which includes the GE Integrated Systems products, including Facility Commander™Wnx and Picture Perfect™ and the Lenel product line.
- **Security Systems**, which includes the Guardall and International Fiber Systems businesses, as well as TruVision and the residential product lines.
- **Onity**, which provides electronic locks for the hospitality and lodging industry, as well as other sectors such as Education, Corporate, Government and Marine.
- **Supra**, which provides locks and lock boxes and is particularly strong in the real estate business.
